DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on June 25, 2004, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claim 2.

Response to Arguments

2. Applicant's arguments, see Amendment, filed June 25, 2004, with respect to claims 1-3 have been fully considered and are persuasive. The rejection of claims 1 and 3 under 35 USC 102(b) as being anticipated by or, in the alternative, under 35 USC 103(a) as obvious over Berejka et al (4,300,988) has been withdrawn. The prior art of record fails to expressly teach and/or fairly suggest a rubber composition or its crosslinked product comprising an isobutylene copolymer selected from the group as found in claim 1, which has a density of at most .95 that can be readily subjected to radiation treatments.

Allowable Subject Matter

3. Claims 1 and 3 are allowed.

4. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is applicant's amendment that positively recites which isobutylene copolymers have a density of at most 0.95 in all the claims that are readily subjected to radiation treatments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled " Comments on Statement of Reasons for Allowance."
